SUMMARY

Full Stack Developer with internship experience building MERN applications. Skilled in designing REST APIs, implementing JWT authentication and RBAC, and working with MongoDB, PostgreSQL, and Drizzle ORM. Recent Computer Engineering graduate seeking Full Stack, Backend, and SDE-1 roles.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT, RBAC
Databases & Tools: MongoDB, PostgreSQL, Drizzle ORM, Git, GitHub, Postman, Cloudinary
Concepts: OOP, MVC Architecture, Authentication & Authorization, Async Programming

EXPERIENCE

Ker Infotech Sept 2026 – Present

Full Stack Intern (Training) Ahmedabad, Gujarat

- Building a production-style full-stack application with **React.js**, **Node.js**, and **Express.js** on a **PostgreSQL** database
- Designing relational database schemas and type-safe queries using **PostgreSQL** and **Drizzle ORM** in a mentor-led training program

Royal Technosoft Pvt. Ltd. Jan 2026 – Apr 2026

MERN Stack Intern Ahmedabad, Gujarat

- Developed a multi-role rental platform with **RBAC** and role-specific Guest, Host, and Admin dashboards
- Built **REST APIs** for authentication, listings, and user management using **Node.js**, **Express.js**, and **MongoDB**
- Implemented **JWT** authentication, protected routes, and conflict-free reservation logic with date-overlap validation
- Built responsive UI components using **React.js** and **Tailwind CSS** with reusable component architecture
- Integrated **Cloudinary** for image upload and management with secure file handling

PROJECTS

Stayora Rental Platform GitHub | Live Demo MERN Stack

- Developed a multi-role rental platform with reservation lifecycle management and role-based dashboards for Guest, Host, and Admin
- Built conflict-free reservation logic with availability validation and date-overlap detection
- Implemented a reservation-scoped chat system, admin moderation, and user management
- Secured the platform with **JWT** authentication and authorization middleware, and deployed it with a public live demo on Render

Scatch E-Commerce Platform GitHub MERN Stack

- Developed a full-stack e-commerce platform with **JWT Authentication** and distinct user and admin roles
- Built cart management, product filtering, and order processing on **REST APIs**
- Added input validation and error handling across auth, product, and order endpoints
- Built the frontend with **React.js** and **Tailwind CSS**, backed by **Node.js**, **Express.js**, and **MongoDB**

EDUCATION

Government Engineering College, Modasa June 2026

B.E. in Computer Engineering, CGPA: 7.22/10 Modasa, Gujarat
